## 数字健康城区 (中国·上海)

### WHO Digital Healthy City: Concept & Global Progress 2020-2027

#### WHO 数字健康城区：概念与全球进展 (2020-2027)

129 countries have established national digital health strategies (WHO, 2024)  
Sources: WHO Global Strategy on Digital Health 2020-2027 • GIDH • ITU Digital Health Platform Handbook

## Advantages of Constructing & Operating Internet-enabled Healthcare Powered by Health Cloud

### 基于“健康云”互联网+医疗建设和运营优势

Accelerate the digital transformation of healthcare

Promote the smart application of big data and AI

## Deliver Convenient Medical Services & Improve Healthcare Operational Efficiency

Based on the Yangtze River Delta (Shanghai) Smart Internet Hospital, we build 3 core platforms “Interconnection and Interoperability Platform, Internet Hospital Platform, and Telemedicine Collaboration Platform”, and 3 service centers “Cross-domain Interconnection and Mutual Recognition Center, Internet Hierarchical Diagnosis and Treatment Center, and Internet Medical Operation Center”, forming an AI-driven digital health system integrating medical treatment and disease prevention.
